FISHERS, ONTARIO COUNTY, N. Y.

BEST NEW KINDS SEED POTATOES

Many Trials, beside seed from many places, clearly show Seed Potatoes grown here to be Thriftiest, making Heaviest Crops.

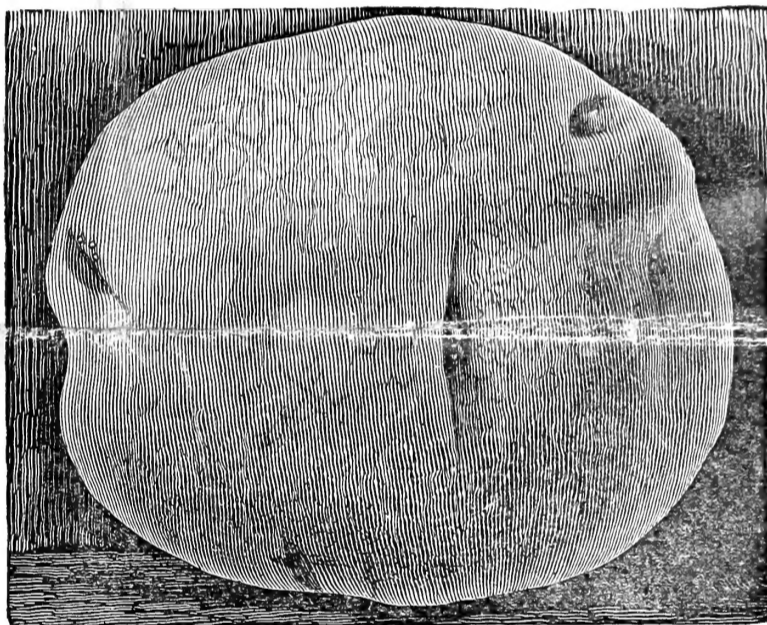

FISHERS ONTARIO COUNTY, NEW YORK.

Has long been noted for Vigorous Seed Potatoes. Many farmers came long distances for them. Thirty years ago one came fifty miles with wagon for a load. Last season orders came to us from farmers in England and Mexico. Each got a few barrels new seed, and we sent more than a car load to Canada, about 600 bushels to growers in

Maine, over 600 bushels to Wisconsin, and many thousand bushels to Middle State farmers. WISE PLANTERS OBTAIN SEED POTATOES FROM PLACES WHERE THEIR VIGOR IS KNOWN TO INCREASE INSTEAD OF RUNNING OUT.

HUSTLER

In a garden patch of Early Rose, one plant ripened. Big, WHITE SKINNED Potatoes, full TWO WEEKS before the rose colored ones, and so good that some were saved and carefully grown several years, proving to be such rapid growers, they deserve the name, HUSTLER. Although extra early, it keeps remarkably SOUND AND FIRM UNTIL SPRING. Its sprouts are large, strong and vigorous, leaves very broad, dark green, vines stout, upright, rugged, healthy, rapid growers, unknown to blight. HUSTLER GROWS LARGER, YIELDS MORE LARGE POTATOES, and ripens more uniformly, very early, than most other extra early kinds. Its large, plump, chunky, smooth, handsome tubers, will be among the very first to market at highest price, and well worth it, too. Such EXCELLENT COOKERS will surely be wanted. Heaviest yielder of extra early sorts; good keeper, sound and firm until summer. Finest quality all the year round.

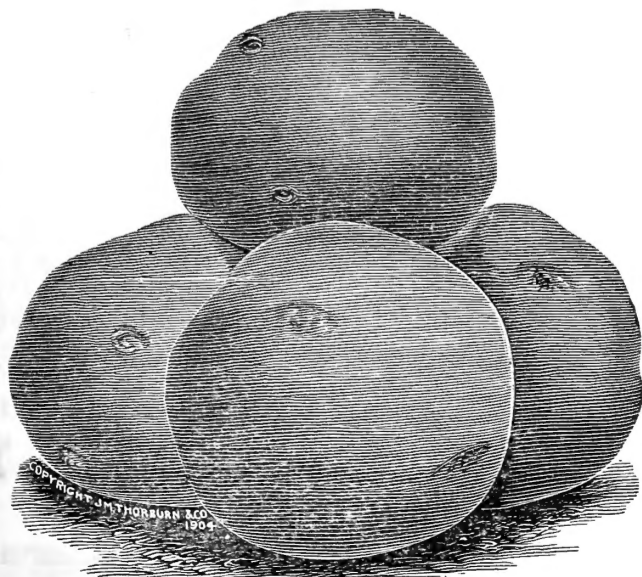

PRICE: 90 CENTS PER PECK; \$1.25 PER HALF BUSHEL; \$2.00 PER BUSHEL; \$4.50 PER BARREL.

SEE WHAT THIS FARMER SAYS OF IT

I was well pleased with those new potatoes which I had for trial. THE HUSTLER ripened extremely early, and such splendid cookers, they were in great demand for table use before several other early sorts were large enough. With ordinary field culture they yielded about one-fourth more than Carman, right along side.—Robert T. Evans, Burlington Co., N. J.

NOROTON BEAUTY

Introducing NOROTON BEAUTY seedsmen said "It is the earliest potato ever grown, by far the most productive extra early, yielding as heavily as any of the medium early sorts; handsomer; and more uniform in size and shape than any other. Its quality is superb, keeps well very late; the best all round potato in existence." A seedling from a seedling of the famous Peachblow which it resembles in shape and color, being pretty uniformly round and splashed more or less with pink or red and with pinkish eyes. Those grown on highest best potato soils here have more color than those from lower lands south. We would have planted more of Thorburn Co. seed NOROTON BEAUTY even at their very high price had we known how many nice, bright, smooth, sound, large ones would grow from them, nearly twice as many as most other extra early sorts usually produce.

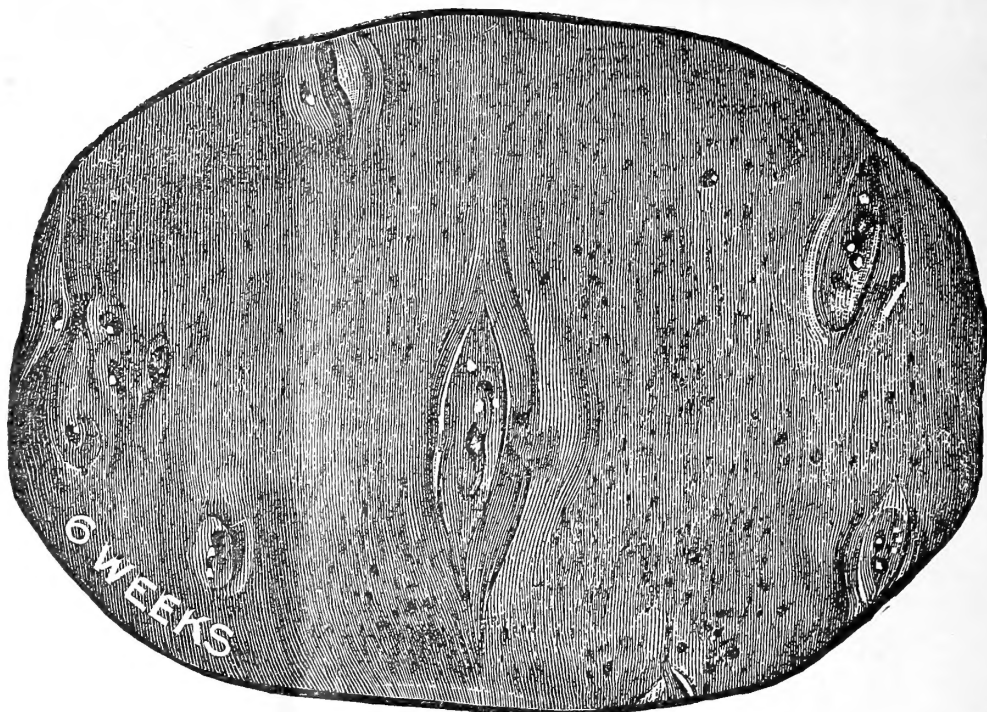

PRICE: 90 CENTS PER PECK \$1.25 PER HALF BUSHEL; \$2.25 PER BUSHEL; \$4.50 PER BARREL.

EARLY SIX WEEKS

THIS NEW EXTRA EARLY is in great demand for seed by market gardeners who harvest them before the vines begin to die. They sell the plump, smooth, bright, handsome potatoes at very high prices. Geo. W. Richardson of Morrison County, Minn., reported, "SIX WEEKS are EXTRA EARLY, cook mealy, are good yielders of nice size averaging one-half pound each. Eight pounds of seed yielded over FIVE HEAPING BUSHEL BASKETS." John F.

Greensville, reported that June 15th he dug over SIXTEEN BUSHELS from one peck of seed and that they were ready sale at \$3.00 per bushel. G. R. Hixon reported that six weeks from planting, he dug FIFTY BUSHELS which averaged him fifty cents per peck. Introducers claim to grow SIX WEEKS large enough for use in only six to seven weeks from planting. This seems to us incredible. We had nice large potatoes June 15th, say about six weeks after coming up. We are told that FARM JOURNAL people had NICE LARGE SIX WEEKS potatoes in fifty-seven days from planting.

\$1.25 PER HALF BUSHEL; \$2.00 PER BUSHEL; \$4.00 PER BARREL.

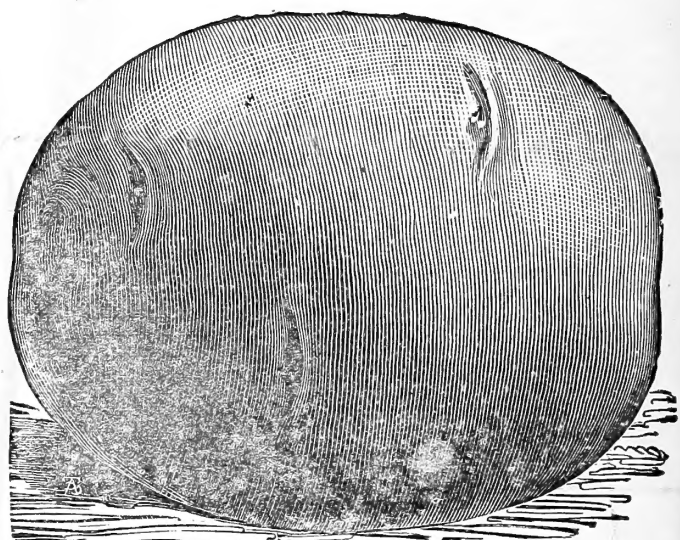

IMPROVED OHIO

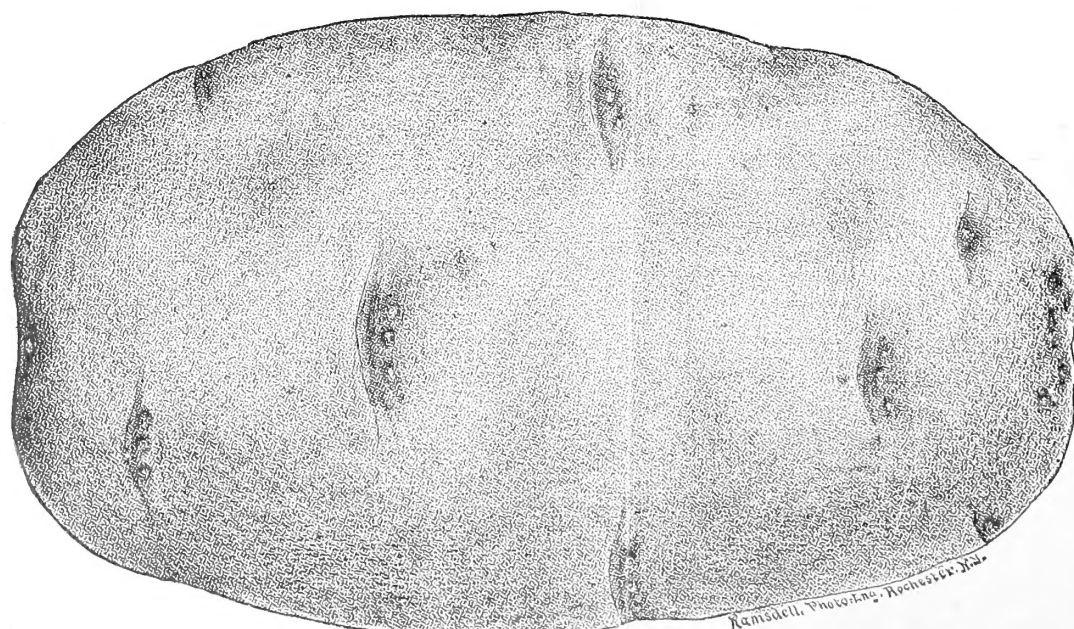

Seems good for suitable soil, early, thorough culture and quick profit, leaving land in fine shape for following crops. We have the best large lot of IMPROVED OHIO we ever saw, seven weighed $7\frac{1}{2}$ pounds. Very soon after their rugged sprouts spread broad leaves above ground they set tubers which grow very fast and mature when leaves begin to die, making a better crop than any other kind which ripens so soon. They are then welcome at table for finest quality and in market at fancy prices because of plump, smooth, handsome appearance. Light pink and large, while most other early sorts are still too small for use.

PRICE: 90 CENTS PER PECK; \$1.25 PER HALF BUSHEL; \$2.00 PER BUSHEL; \$4.50 PER BARREL.

April, 1902, Mr. S. C. VanWyck of Dutchess Co., N. Y., wrote us: "Just received my four barrels of potatoes. They are very nice."

MANISTEE IMPROVED

Out yielded all other pink kinds the last three years. Mid-season, oval, oblong. Its plants are healthy, rapid growers, free of disease or blight, soon making large vines covering the ground well. On naturally superior potato soil here this excellent variety has steadily improved in quality and yield, until now it is very productive and of fine quality.

\$1.00 PER HALF BUSHEL; \$2.00 PER BUSHEL; \$4.00 PER BARREL.

Please tell us what kinds and about how many you think of getting and we will name Special Low Prices on them.

Potatoes Grown Especially for Seed.

Reports from many customers agree, saying our Seed Potatoes come surer, make stronger plants and stand bad weather better, so make heavier crops than seed from any other place planted along side. Try them and see for yourself. Best Seed is Cheapest in the long run.

CHAS. W. FORD & CO.,

Our Freight Office, Express Office and Money Order Post Office is at

FISHERS, ONTARIO COUNTY, N. Y.

NOTICE.—Should you receive more than one copy of this Price List, please do us a favor by handing it to some one interested in Good Seed Potatoes.

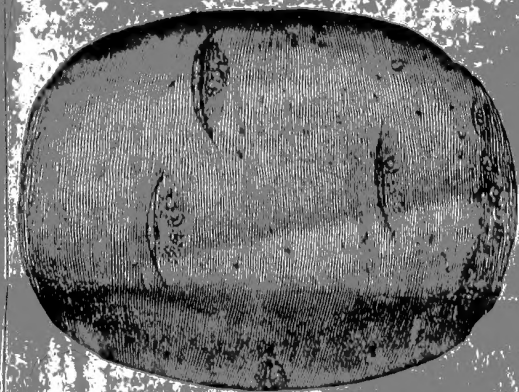

We have a large supply, good true stock. Order now with cash to secure the best, to be shipped whenever purchaser desires or as soon as weather favors. Please give explicit orders for shipping. We deliver in good order on board cars, when our responsibility ceases; transportation charges in all cases paid by the purchaser, except small packages, which we send by mail. Be sure your order gives name of your County, Station and Railroad.

CHANGE OF SEED OFTEN DOUBLES THE YIELD. BUY EARLY AND GET THE BEST. ORDER NOW. BEST KINDS AT FAIR PRICES FOR EARLY SPRING SHIPMENT.

GOOD NEWS. A seed ball from White Star produced this healthy, vigorous seedling, yielding very heavy crops of smooth, bright, handsome potatoes with light pink skin like Early Rose, and pure white flesh, yet a faint trace of pink is very rarely found. The above cut fairly shows its form and eyes, which are well developed and strong. Although early, it keeps well, then puts out vigorous healthy shoots. Produces heavy crops early and of excellent quality. Try it. Per bbl \$3.00.

M. H. Miller, Barbertown, O., says he raised 70 bushels excellent cookers from one barrel Good News.

OHIO JUNIOR. Although a chance seedling, is no doubt related to that good old sort, the Early Ohio, as it is almost identical with that variety in form, color, habit of growth, etc., probably only in chance where the "Ohio" has been reproduced from seed ball. Tubers are oval oblong, round at the seed end, with full eyes. It is an excellent keeper, of fine quality—a valuable extra early sort. It may be called an Early Ohio of new blood. Per bbl \$2.50.

| WORLD, WONDER, very productive, large, smooth, white, good | 2 50 | 2 25 |

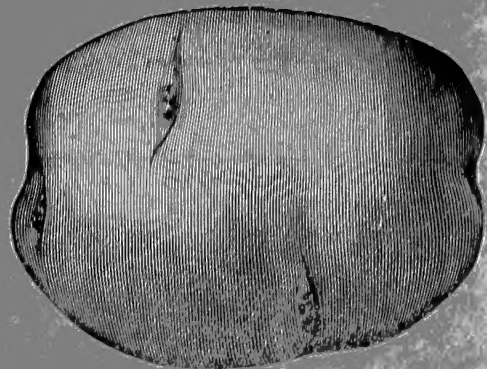

Ask for special cash with order prices on three or more barrels, stating quantities and kinds wanted. Seems a good time to buy fine very best Seed Potatoes, before the advance likely at planting time. Prices subject to change without notice. Our lots specialty. For convenience of customers we can pack their potatoes in sacks or barrels of any reasonable size. Seedsmen generally bargain for full 165 pounds weighed into each barrel or sack. Same quantity in sack costs 20 cents less than in barrel. Prices now about as follows, for spring shipment they may be higher.

| | Per bbl | Per bu. |
|---|---------|---------|

| ENORMOUS, new, very productive, large, white, late | 2 00 | 1 75 |
| HERBIA, extra early, round, white, good and keeps well | 2 75 | 2 25 |
| GOOD NEWS, new, early, light pink, handsome very productive, fine quality | 2 75 | 2 25 |
| GEM OF ARGOSHOOD, new, early, handsome, productive, good | 2 50 | 2 25 |
| GREEN MOUNTAIN IMPROVED, a free yielder, good quality and appearance | 1 85 | 1 65 |
| GREAT DIVIDE, long, white, heavy yielder, good for late spring use | 2 75 | 2 50 |
| HARMONY, mid-season, large, oblong, pink, productive, good | 2 75 | 2 50 |
| HONEY, mid-season, large, smooth, handsome, fine quality, big crop on light land | 2 75 | 2 50 |
| HOPWELL, early, white, oblong, productive, good quality | 2 80 | 2 25 |
| HUSTLER, extra early, large, white, productive, keeps well, fine quality | 4 50 | 3 50 |
| IONIA SEEDLING, new, mid-season, short, round, white, heavy yielder, good | 2 25 | 2 00 |
| IRISH COBBLER, extra early, large, productive, good yielder, fine quality, try it | 3 00 | 2 50 |
| ISLE OF JERSEY, new, mid-season, smooth, white, very productive, excellent | 2 75 | 2 50 |
| JUMBO, an immense yielder, of fine appearance, smooth, white, large, round | 2 25 | 2 00 |
| KAISER, new, pink, oblong, very productive | 3 50 | 3 00 |
| KING OF THE EARLIES, extra early, large, long, bright pink, fine quality, good keeper | 2 75 | 2 40 |
| KING OF THE ROSES, early, very productive, handsome, quality good | 2 50 | 2 25 |
| LONGFELLOW, the heaviest cropper, long, smooth, glossy, white, handsome | 4 25 | 3 50 |
| MAGGIE MURPHY, mid-season, large, pink, good for light soil | 2 80 | 2 50 |
| MAMMOTH PEARL, a very heavy yielder of the Peerless class, good quality, long keeper | 2 50 | 2 40 |
| MANISTEE, new seedling, early, pink skin, white flesh, very productive | 2 75 | 2 50 |
| MILLS PRIZE, very large, white and productive, good for main crop | 2 50 | 2 00 |
| MOUNTRON, new, early, vigorous, productive, excellent quality | 4 00 | 3 00 |
| NEW QUEEN, early, very handsome and yields well, fine quality, like Hebron | 2 50 | 2 25 |
| NEW SCOTCH ROSE, mid-season, large, bright pink, good | 3 00 | 2 50 |
| NORCROSS, new, mid-season, large, white, heavy yielder like Green Mountain, good | 2 25 | 2 00 |
| NORRING, long, white, smooth, handsome, productive, good | 3 25 | 3 00 |
| NOROTON BEAUTY, new seedling, extra early, very productive, fine quality, keeps well late | 4 00 | 3 50 |
| OHIO JUNIOR, extra early, a new seedling, one of the best for early market | 2 75 | 2 25 |
| OHIO, extra early, good for the market garden, excellent quality | 2 50 | 2 15 |
| O. K. MAMMOTH PROLIFIC, an enormous yielder, resembles Peerless | 2 25 | 2 00 |
| PEERLESS JUNIOR, noted as a heavy cropper, good keeper, good quality | 1 80 | 1 65 |
| PRIDE OF THE EAST, new, big yielder, fine appearance, smooth, white, large, roundish | 3 00 | 2 50 |
| PROSPERITY, mid-season, very large, white, smooth, handsome | 2 00 | 1 75 |
| QUAKER CITY, new, handsome, white, vigorous, productive, good for home use | 2 00 | 1 75 |
| QUEEN OF THE ROSES, early, a heavy yielder, of excellent quality, handsome | 2 50 | 2 25 |

The outside column of prices is for small potatoes, about the size of hen's eggs for planting whole, saves rotting on cut sides. Especially adapted to plant late in the South, also where fertilizer is used.

The supply of Early Potatoes is not equal to the demand and orders should come at once to secure good stock. Prices are likely to be higher at Planting Time.

The Foundation of our Trade is the Good Will of Satisfied Customers.

IRISH COBBLER is reliable for extra early. In our trials it ripens uniformly early. 35 plants on foot apart in row, yielded 42 pounds bright, smooth cream white Irish Cobbler of excellent quality and with exactly the same treatment along side the Early Ohio yielded 26 1/2 pounds a few days later; still later came Early Hebron yielding 27 pounds; King of Roses yielded 42 1/2 pounds, two weeks later than Cornish. In our trial of 85 varieties IRISH COBBLER yielded much better than any other extra early sort. Keeps well until spring, its sprouts are strong and healthy. Considering earliness, yield, fine quality and handsome appearance, IRISH COBBLER is a very desirable extra early kind, opening good crops while prices so high only gardeners sell to nearly all, the few Cobblers their command very high prices for seed. Numerous reports prove IRISH COBBLER to be gaining vogue here. One grower reports that he grew 350 bushels per acre. Another says he had an acre which grew 412 1/2 bushels Irish Cobblers. This is the kind to plant in order to have a good crop before your neighbors. Per bbl. \$2.25.

EARLY OHIO, is highly prized by market gardeners, because extra early. The supply is never equal to the demand. Orders should come early to secure good, true stock, pure and true. Per bbl. \$2.50.

BOVEE, New, early oblong, smooth, pink and white. Good yielder, of fine quality. Per bbl. \$2.75.

QUICK CROP, An early potato similar to New Queen. It has made heavy crops for such an early variety and we recommend it. Per bbl. \$2.75.

EARLY FORTUNE, A good one for the garden, early, productive, fine quality, shape and color like Early Rose, except that on some soils white blotches appear between pink. Per bbl. \$2.75.

ASTONISHER, This new extra early potato is the heaviest yielder of all the long white extra earlies. It is fine quality, a vigorous grower, making large spreading vines. Sets numerous potatoes which grow to be large in good potato soil with good cultivation. This is a good one but not quite so early as Irish Cobbler, Six Weeks and Hustler. Per bbl. \$3.00.

CROWN JEWEL, A productive early sort of superior quality, resembling Beauty of Hebron. Order early as stock is limited. Per bbl., \$2.75.

EARLY PURITAN, Peter Henderson introduced it with very high recommendations. Tubers are white, smooth, and grow close together in the hill. It is a good yielder of excellent quality. The more we see of it the better we like it. Per bbl. \$2.70.

EARLY MARKET, Especially recommended for early marketing, because it is extra early and of fine quality. Per bbl. \$2.75.

DELAWARE, We are pleased with this beautiful white skinned, medium early potato. Quality good and heavy yielder, one of the best. Per bbl. \$2.00.

HOPEWELL, Early white oblong, per bbl. \$3.00, somewhat like Green Mountain but earlier.

WHITE ROSE, Introducers claim it to be the best early variety. Good cropper of fine quality, smooth, white and handsome. Per bbl. \$2.75.

MANISTEE, New seedling of Early Rose, round to oblong, eyes shallow, pink skin, white flesh, vines luxuriant, standing drouth well and producing heavy crops early. Per bbl. \$3.00.

EARLY NORTHER, In shape, color and season of ripening it is like Early Rose. A good yielder and of fine quality. Per bbl. \$2.75.

HARMONY, Medium early, good keeper, good quality, dark pink, round to long, flattened, strong, rapid grower, free of blight, yields heavy crops of very large potatoes, close together in the hill. Lynn Kipp reports 142 barrels nice HARMONY off two acres. Per bbl. \$3.50.

EARLY HARVEST, This beautiful, early potato is a heavy yielder for an early variety, good size, white. Good for the market garden. Per bbl. \$2.75.

CLARK'S NO. 1, Pink, a good cross between Peerless and Early Vermont. Gardeners like it for early market. Per bbl. \$1.75.

KING OF THE EARLIES, Very Early bright pink, oblong, good yielder, of fine quality, and handsome appearance. Per bbl. \$3.00.

NEW QUEEN, Resembles Hebron in shape and color, of handsome tubers. A friend near Philadelphia got a few from us, harvested and sold a good crop at high prices early in July. He spread the little ones in an out house where the eyes were found starting after about two weeks, so he planted them August 1st, and though the weather continued too dry for rapid growth, he harvested a good second crop in October. It seems very early. Per bbl. \$2.75.

KING OF THE ROSES, We thoroughly, tested this new seedling on many different soils, and found it to withstand sudden wide changes of weather, wet and dry remarkably well. It produces much heavier crops of fine, large, handsome tubers of excellent quality, than any other of the true Rose family, ripening with Early Rose. It is a strong, rapid grower, standing up well during season of cultivation and when fully developed the vines cover the ground. Tubers large, oblong, pink like Early Rose. It is one of the best. Per bbl. \$3.75.

MAGGIE MURPHY, Mid-season, produces nice large potatoes on light soil, too poor for other kinds. It is very productive, handsome and of fair quality. Some crops of this variety grew so large this season that it took but 30 tubers to fill a bushel basket. The tubers are oval in form, very large and well rounded; eyes few and slightly depressed, skin light pink, flesh white. Per bbl. \$3.00.

THOROUGHbred, This new, medium early potato of the Rose class comes highly recommended by farmers who have grown it. It has done well here and our stock is genuine. Per bbl. \$2.75.

QUAKER CITY, This new medium potato yields abundant crops, even without fertilizer. Tubers are smooth, white and handsome, oblong, flattened, large but not hollow. Rural New Yorker reported trial of Quaker City yielded 564 bushels per acre; quality such that housekeepers having tried it once ask for it. Per bbl. \$2.75.

We Recommend Especially Irish Cobbler, Ohio, Hebron, Early Ohio, Northern Beauty, Astonisher, Hustler, Early Six Weeks, Bovee, and Harvest for extra early, Good News, King of the Roses, Mountain, Thoroughbred and New Queen for early, Uncle Sam, Green Mountain, Norcross, Reliance, Sir Walter Raleigh, Carman, Stump the World, Longfellow, Endurance and World Wonder for late.

IONIA SEEDLING, Mid-season, new, from seed ball of the Carman family but comes up several days sooner, and rapidly makes rugged spreading vines well stocked with bright green leaves like true State of Maine. Ionia Seedling is round to oblong, white skin slightly russet, flesh white and of good quality. It sets a goodly number and they run so large as to fill many baskets and make very profitable crops which keep well, sell well and cook well. Per bbl. \$2.50.

ENDURANCE, Late, new seed ball of Green Mountain, so vigorous and healthy it stands both wet and dry weather so remarkably well that farmers that have grown it say it has never blighted yet and claim it to be blight proof. Vines erect, strong and branching cover the ground well. It sets a good many to the hill, mostly large, bright, smooth, white and handsome, with shallow eyes. A good productive late keeper of superior quality. Per bbl. \$2.50.

STUMP THE WORLD, This new seedling in line with the Rural New Yorker, and Carman out yields them all. It closely resembles Carman No. 1, but tubers are more rugged (larger). Finding BIG NICE ones make the boys laugh and relieve the toil of picking up bushel after bushel without moving baskets. A good late keeper of excellent quality. Per bbl. \$2.45.

VERMONT GOLD COIN, Burpee says: It is the hardest, most productive, best quality of all potatoes. Best for main crop. E. L. Coy says: "Very best potato in existence." Per bbl. \$2.30.

WHITE FLYER, Mid-season, New, large, smooth, white with few eyes, eyes shallow, very productive, has yielded heavy crops here. Per bbl. \$2.20.

AMERICAN WONDER, A medium variety that has yielded heavy crops here. It is long, smooth, flattish, white, slightly russey, quality excellent. Per bbl. \$3.00.

ENORMOUS, Said to have yielded 604 bushels on a measured acre, 1,599 bushels on 3 acres the next season, vines large, stout, crop remarkable, potatoes very large, white, late. Per bbl. \$2.20.

GREEN MOUNTAIN IMPROVED, Stands bad weather better than other kinds. Makes very heavy crops. Vines strong and vigorous; tubers white, smooth and large. A good keeper of excellent quality. Per bbl. \$3.00.

EMPIRE STATE, Is a true seedling from White Elephant, which it resembles closely in foliage and manner of growth. Tubers are white and smooth. Some have a small pink blotch on seed end. Perhaps this potato may produce valuable sports; we hope it may. Per bbl. \$3.00.

RED JACKET PURPLE TOP, Mid-season quite different from all others, chunky, oblong, skin red netted, flesh usually white, rarely blushed pink, eyes few but strong, producing very large pink sprouts. Vines and first leaves dark, almost purple. A strong grower, not easily pinched by drouth, remarkably free of disease, blight and scab. A heavy cropper, almost every one large. Per bbl. \$3.25.

RURAL RED, Mid-season, Vines large, dark, healthy color, roundish, flattened like Rural New Yorker, but red. Nearly all large enough for market. Per bbl. \$3.00.

NORCROSS, Medium late, large, flat, short, oblong, like Green Mountain, heavy yielder, fine quality, white. Per bbl. \$2.45.

IT WILL PAY YOU to get Northern Seed, true to name, direct from grower. Three pounds by mail post paid, \$1.00 or 20 pounds by express or freight, your selection from above list, \$2.50 or \$2.00 if packed in barrels purchased at same time, then shipped as freight.

ISLE OF JERSEY, New, medium, late, large, healthy, spreading vines fill the rows when fully grown. It sets well and makes heavy crops which keep well for late spring use. Short, oblong, slightly flattened and inclined to be wedge shaped. Bright, smooth, white, handsome and of finest quality. Per bbl. \$2.00.

NORKING, Medium oval oblong, large, white and handsome, with just about enough eyes which are nearly even with the surface. Vines vigorous, healthy, upright vines branch mostly the ground and soon fill the rows. Yields heavy crops as good as either Burbank Elephant or White Star, every is, excellent quality bodied, baked or mashed and keeps well late in the spring. Per bbl. \$2.40.

CARMAN NO. 1, followed Rural New Yorker being a seedling in that line. Farmers are well pleased with its great crops, large white potatoes of such high quality that housekeepers ask for it. Per bbl. \$2.05.

CARMAN NO. 3, Neighbors examining first we got said: "Just like Rural New Yorker." Later vine and bloom purple like Rural. What fools to pay \$26 per bbl. for such seed. Of course Rurals and Carman No. 1, made big crops but No. 3, yielding fully 1/2 more just as handsome, made up for the higher priced seed. Per bbl. \$1.90.

SIR WALTER RALEIGH, A new seedling of Rural New Yorker that is better than its parent, which it closely resembles, but is later and more uniform in shape and size. Almost every one marketable. When first offered we bought a barrel of Peter Henderson & Co., who say it is best of its type, the whitest flesh and finest grained. From the barrel we got a big yield, too valuable to eat. We trust they may prove nearly as good quality as Good News and Irish Cobbler. Per bbl. \$1.95.

RURAL NEW YORKER, Mid season, large, smooth, heavy yielder. Their handsome appearance command top prices. Per bbl. \$1.30.

UNCLE SAM, Mid-season, roundish flattened, smooth, white, heavy yielder, good keeper, of excellent quality. Per bbl. \$2.20.

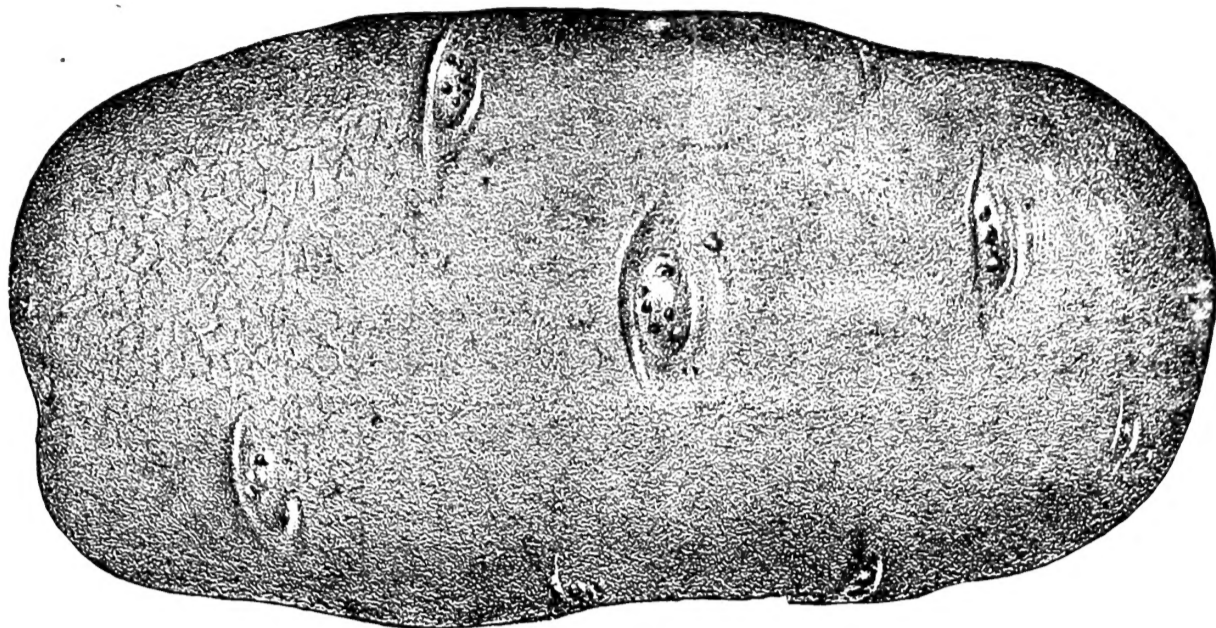

AMERICAN GIANT, A late sort of great value. Tubers are very large, long, smooth and white. In market it will be classed with White Star. Yields much heavier crops than Star. It has remarkable vigor resisting both blight and drouth. Nearly every tuber is of marketable size, and it keeps well for spring use without sprouting. Per bbl. \$2.70.

PROSPERITY, Claimed by introducers to be the most profitable medium potato in existence, very large, roundish, white, smooth, handsome and good keeps plump and sound late. Vines dark colored, rugged and healthy. Per bbl. \$2.20.

BULLY BOY, Is a strong grower, yielding immensely, large, white, round to long tubers, slightly flattened, somewhat like Rural New Yorker but vine is better and more tubers to the hill; nearly all marketable size; quality fine. Per bbl. \$2.80.

Charles W. Ford, Fishers, N. Y. "Received those potatoes today and am well pleased with them." H. A. Stower, Springs, Pa.

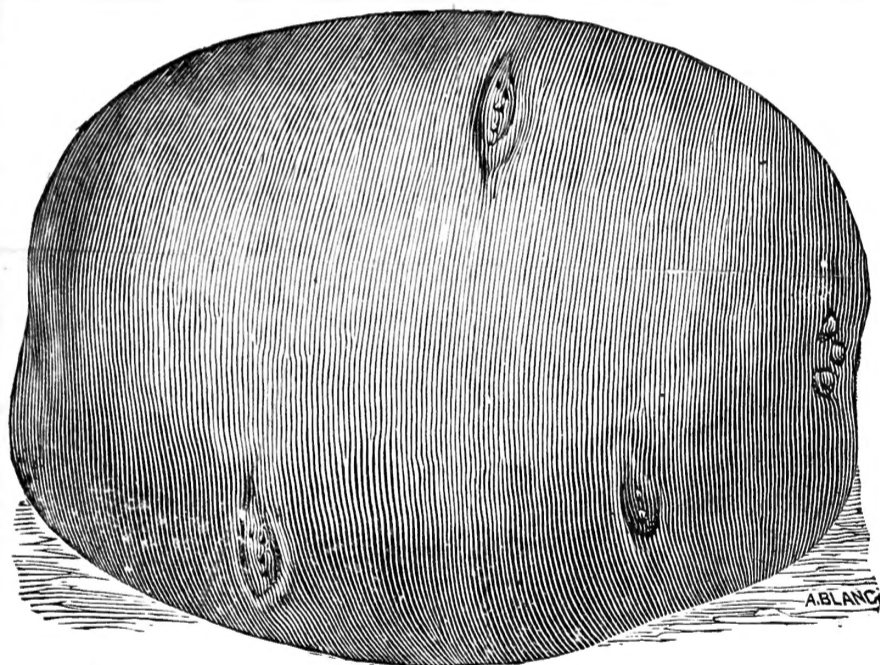

GOOD CHANCE to try new kinds. About 1 lb. (4 good potatoes) each of 60 kinds, your selection from our list, packed and on cars, \$5.00, 15 kinds, 1 lb. each, or 12 kinds, 15 lb. each, packed and on cars, \$6.00.

NEW SEEDLING RELIANCE

Mid-season; large, white, very productive. This vigorous, healthy, new seedling is very hardy and well suited to a wide range of climate and soils, making splendid crops both north and south, keeping well late. It has large, full, strong eyes, which put forth thrifty sprouts, soon making large vines which are well stocked with broad leaves and stand up well until after blossoming, then fall and cover the ground. RELIANCE sets numerous potatoes close to the vine, roundish, slightly flattened, largest are half-long, nearly all large, shaped somewhat like Carman, but has larger eyes, makes more vines, has done much better on hard soils where most kinds fail and has made heavy crops on sandy soils too light for other sorts.

PRICE: 90 CENTS PER PECK; \$1.25 PER HALF BUSHEL; \$2.00 PER BUSHEL; \$4.50 PER BARREL.

WORLD WONDER

Very productive, uniformly very large, round to oblong, somewhat flattened, shallow eyes. smooth, glossy, white skin, good cookers, flesh very white, fine grained. This splendid new variety fresh from a seed-ball of Rural New Yorker is the newest and best in the same line with Carman and Sir Walter. It closely resembles these magnificent varieties, is thriftier, a stronger grower, more to the hill, more uniformly large, much larger crops, smooth and handsome, ripens with Carman. Paul Fredericks originated and named this WONDER. He had 60 bus. more per acre than a very heavy crop of Rural N. Y. right along side. Neighbors

who grew thousands of bushels of Rurals, Carmans and Sir Walter were satisfied with good crops until they watched WONDER and saw their favorites beaten 60 to 100 bushels per acre. They are now glad to get seed of this NEW SEEDLING at any reasonable price.

PRICE: 75 CENTS PER PECK; \$1.00 PER HALF BUSHEL; \$1.50 PER BUSHEL; \$3.50 PER BARREL.

I had six short rows of this new kind (World Wonder) and harvested nineteen bushels, and from six rows, the same length, of Rural New Yorker adjoining them, I only got ten bushels. I don't want to sell any of the new kind. I want to plant them.—FRED GIBKE.

I helped dig six short rows of WORLD WONDER in the field of Mr. Gibke that yielded nineteen bushels of NICE TUBERS while six rows of Rural New Yorker beside them yielded only ten with the same treatment. No sign of blight.—Michael Hickey.

Lewellyn Matthews grew 24 bushels WORLD WONDER from 1 bushel of seed.

ENQUIRER

New, light pink. This grand medium early kind seems like a good cross between Rose and Maggie Murphy. It grows a good large, upright, bright green vine and sets enough to make heavy crops of large potatoes which look somewhat like Choice Rose but larger, thicker through. It is longer and sets more to the hill than either Maggie Murphy or Carman, making heavier crops of bright, handsome tubers, good keepers of excellent quality.

PRICE: \$1.25 PER HALF BUSHEL; \$2.00 PER BUSHEL; \$4.00 PER BARREL.

Write S. J. Smith's Seed Co.

SHORTSVILLE, N. Y.

FOR SWEEDISH SELECT OATS,

out yield 36 varieties. 3,000 bu. Book to Seedsmen for 1909. Davis and Golden Wax Beans, 300 bu. Stowell's Evergreen and Perry's Early Corn, for 100 hills, mailed for 10c in stamps. White or yellow, eight rowed, Flint Corn, 30 acres, test 95 to 100 per cent. Barley Beans and Buckwheat. Choice Timothy and Clover Seed. SATISFACTION GUARANTEED. Write SMITH for prices. Any one sample mailed free.

We are not acquainted with seed offered by S. J. SMITH'S SEED CO., and do not guarantee them, but our dealings with S. J. Smith have been satisfactory these many years.

FISHERS, Ontario Co., NEW YORK

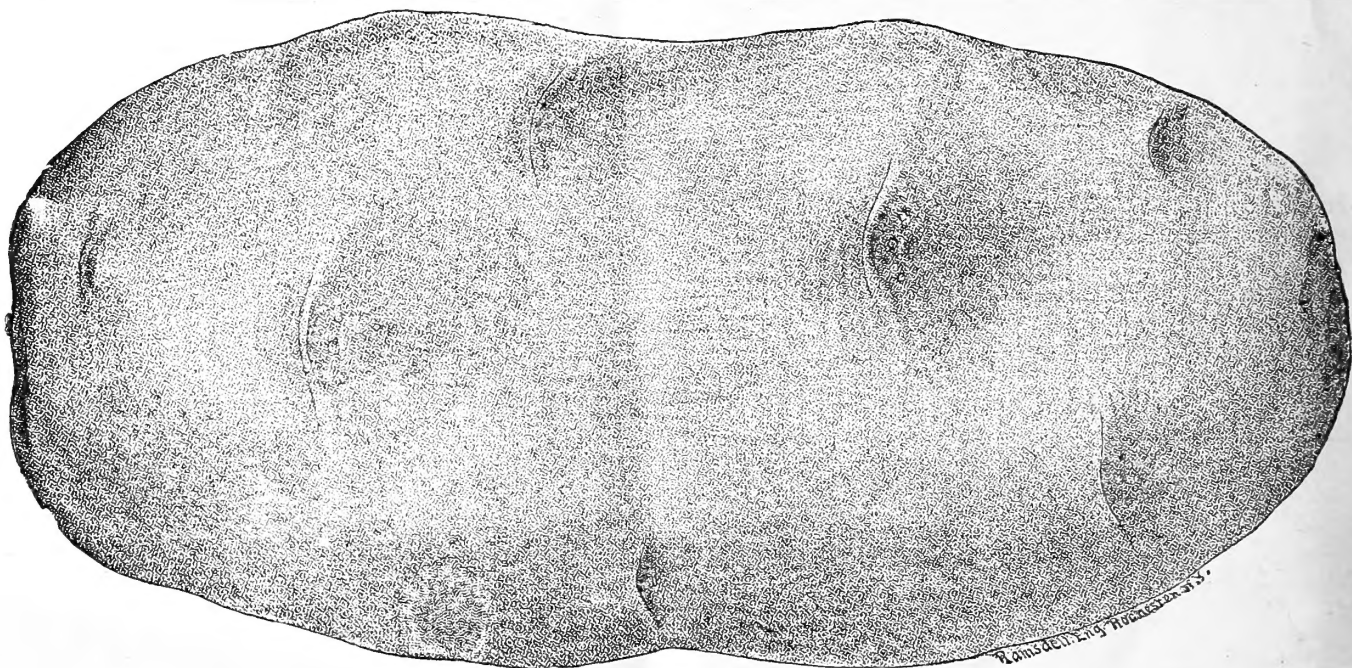

When you buy Our Seed Potatoes you know you get the best; they have gained a wide reputation

THREE KINDS IN ONE BARREL

ON every farm should be a few EXTRA EARLY, some medium and more of a later kind, so that farmers may have the best all the year round. 15 pounds HUSTLER, 30 pounds MAINSTEE IMPROVED and 120 pounds WORLD WONDER or NOROTON BEAUTY, LONGFELLOW and RELIANCE, in one barrel for \$4.50; or one-third barrel each of any three kinds in our lists at list prices, packing with something between to separate; 165 pounds all in large barrel.

PAT MURPHY'S CHOICE

Late, long, smooth and handsome. Keeps well for spring and summer use. Does not go to pieces in cooking. Its pure white flesh makes EXCELLENT FRENCH FRIES GOOD ALL THE YEAR ROUND. It has plenty of good strong eyes nearly even with the surface, and on suitable soil with proper treatment it generally makes BIG CROPS OF BIG POTATOES free from scab or disease. **90 CENTS PER PECK; \$1.25 PER HALF BUSHEL; \$2.00 PER BUSHEL; \$4.50 PER BARREL.**

LONGFELLOW

Medium late, very large, long, somewhat flattened, eyes shallow. Smooth, glossy, white skin, flesh white, good to boil and fry; just right to make Saratoga chips. THE HEAVIEST CROPPER IN CULTIVATION. Vines are very luxuriant, branching freely and have many more leaves than potato vines usually have. When full grown, LONGFELLOW vines generally cover the ground completely. LONGFELLOW sets a good many potatoes which grow to be VERY LARGE, smooth and handsome. It has made immense crops, doing remarkably well on all kinds of soil.

PRICE: 90 CENTS PER PECK; \$1.25 PER HALF BUSHEL; \$2.00 PER BUSHEL; \$4.50 PER BARREL.

GOOD PRICES FOR DRIED ROOT GINSENG, SEEDS AND PLANTS FOR SALE LOW.

WE SOLD AT HIGH PRICES ALL DRIED GINSENG ROOT CUSTOMERS SENT FOR US TO SELL. Our commission for selling is five per cent. net. Mr. Carhart of Anandale, N. J. wrote us Jan. 9th, 1907—"We received your letter and Draft all right. I am very well pleased with the price. Yours &c, S. L. CARHART.

GINSENG—The Man Plant of American Indians and of Chinese, because some few old roots look like a man, branch roots tapering like thighs, legs and arms with root stock for head, all proportioned somewhat like the human form. These Manlike roots sell for fabulous prices, and the other roots at less price in China, where it is highly valued as a remedy, particularly for exhaustion of body or mind, that it strengthens the vital spirits; also prolongs life in old age;" sometimes sells for its weight in gold. An educated Chinaman tells us: "GINSENG root look like little man, makee feel good, makee fat, strong, cost muchee in China."

A neighbor found in forests a few plants from which he is growing CULTIVATED GINSENG OF FINEST QUALITY SUCCESSFULLY AND PROFITABLY in shade of grape arbors, apple trees and buildings.

NEW YORK GINSENG SELLS HIGHEST. His first bed three feet square yielded little over five pounds dried root which sold for twenty-five dollars. Next from bed ten feet square he dug and dried largest roots which sold for \$117.00. High prices led hunters to search forests, dig green and sell damp so hearts rotted, made bad market, so in 1906 he dug only 84 pounds dry which he kept until July, 1907, we sold it for him and sent him a check for \$474.60 for it. BY REGISTERED MAIL SEEMS A GOOD WAY TO SEND DRY ROOTS TO MARKET.

March, 1905 we planted about 25 seedling roots and perhaps a dozen two year olds under tree, using lath fence to help shade. All plants lived so we got about 450 seeds in 1905 and about 1250 each year since from them. We believe Ginseng profitable to grow at \$2.00 per lb.; in fact ours seems so healthy it should pay well at \$1.00 per pound. Young seedlings the size of a match are easy to plant and make hardy plants in shade. We can get 100 good seedling roots for you for \$5.00, or 1000 for \$30.00; or 1000 good seeds ripened in 1907 which should grow early next spring, for \$5.00, if ordered now before other orders take them; these low prices will soon sell them.

Prospect is brighter than usual for Ginseng growers because active demand takes all good dry root at higher prices than ever before so soon after harvest of new crop.

MESSRS. CHAS. W. FORD & CO., Fishers, N. Y.:

Gentlemen:—Thanks for check, one hundred and twenty-six dollars (\$126.00) which I received for the twenty-one pounds of dried Ginseng root you sold for me.

Very truly yours,

Victor, N. Y., July 14th, 1906.

O. B. WOOD.
